First impressions last - our wide range of colour design options gives your entrance area an unmistakable individuality, sets impressive accents and reinforces your corporate identity as soon as you enter the building. Take advantage of our creative freedom to realise your individual design ideas.

You can find more detailed information and our intuitive configurator on our website www.geggus.com.

Aluminium profiles with ribbed carpet can be combined as desired, for example with a choice of blue, grey or black brush strips to enhance the cleaning effect (images left and centre). Not just a visual highlight: Ribbed carpet Dark Grey in combination with coloured powder-coated aluminium profiles and scraper bars (image on the right).
