

SPECIFICATION GUIDE FOR COMMERCIAL OFFICES

PREMIUM ENTRANCE MATTING SYSTEMS

First impressions last

GEGGUS®

SPECIFYING THE MOST APPROPRIATE ENTRANCE MATTING SYSTEM

Entrance matting systems are both an aesthetic and a safety product, playing a crucial role in removing dirt and moisture from footfall traffic and wheels. This important function improves public safety in buildings by:

- Helping to prevent slips and trips
- Prolonging the life of surrounding floor finishes
- Improving hygiene levels
- Reducing cleaning requirements

THE 'TOP CLEAN®' ENTRANCE MATTING RANGE FROM GEGGUS

Entrance matting systems not only have to perform by keeping an area clean and safe, but they also have to complement the overall look and feel of an entrance area. GEGGUS TOP CLEAN® aluminium entrance mats perform all these tasks effortlessly.

They effectively capture dirt and moisture within a matwell recess to provide a safe and effective barrier, helping to reduce the risk of slips, trips, and falls - while enhancing the overall aesthetics of their surroundings. In doing this, aluminium matting systems also help keep cleaning and maintenance costs down, ensuring that reception areas and internal floors always look at their best.

WHERE ARE ENTRANCE MATTING SYSTEMS USED?

With the right specification, an effective entrance matting system can help to achieve a substantial reduction in the quantities of dirt and moisture that get into a building. Entrance mats minimise the danger of slipping on wet floors and reduce regular cleaning costs.

Entrance mats are not only used in entrances and other places of access to a building. With a wide range of mat combinations, they are also effective in other areas where particularly large quantities of dirt are to be found. This diagram illustrates how our diverse range of entrance matting systems can be put to good use in a building.

GEGGUS ENTRANCE MATTING SYSTEMS CREATE THE PERFECT ENTRANCE AND THE IDEAL FIRST IMPRESSION FOR ANY BUSINESS.

Suitable for medium to high daily footfalls in heavily trafficked areas, our mats keep floors clean and pristine and protect customers and staff from slips and trips.

With a wide range of entrance matting systems for reception and public areas, Geggus mats are robust, hard wearing, and able to withstand the rigours of heavily trafficked areas.

GEGGUS Top Clean entrance mats come with a ten year, product, and material defect warranty, providing assurance to the longevity of our entrance matting systems.

INDOOR

FOR COMMERCIAL OFFICES

TOP CLEAN TREND®

The Ultimate Solution: to capture dirt and moisture and to provide a safe, slip- and trip-free environment in commercial offices, we recommend specifying: Top Clean TREND with Ribbed Carpet, for indoor use. Additional options: include business names, logos, and key colours to reflect their brand identity.

Ribbed Carpet (UV-resistant heavy duty polypropylene), available in the following colours:

FOR SYSTEMATIC PROTECTION. ASSURED VALUE FOR MONEY.

Our 3-zone solution takes dirt collection to a new dimension. With a universal design, our entrance matting systems work seamlessly together, enabling a complete 'through solution' to be created from outside to indoors, to provide a series of individual 'clean-off' zones.

Step by Step: Our profile inlays with combinations of materials ensure that moisture and coarse dirt are reliably removed from shoe soles and not carried further indoors – before people actually enter the building and specifically in frequently used entrance areas.

We also take a systematic approach to the issue of safety. Protection against moisture and dirt, together with the anti-slip function, lead to a lasting reduction in the risk of accidents and ensure greater safety.

THREE CLEAN-OFF ZONES. COMBINED IN A SINGLE SOLUTION.

CREATE A WOW EFFECT.

WE'LL MAKE YOUR ENTRANCE AREA A MAJOR HIGHLIGHT.

GREAT

EXPERTISE

Our planning, advice and implementation are based on experience and in-depth expertise.

IMPACT SOUND

Highly effective insulation technology, one of our core benefits.
